The New Volvo ES90

2026

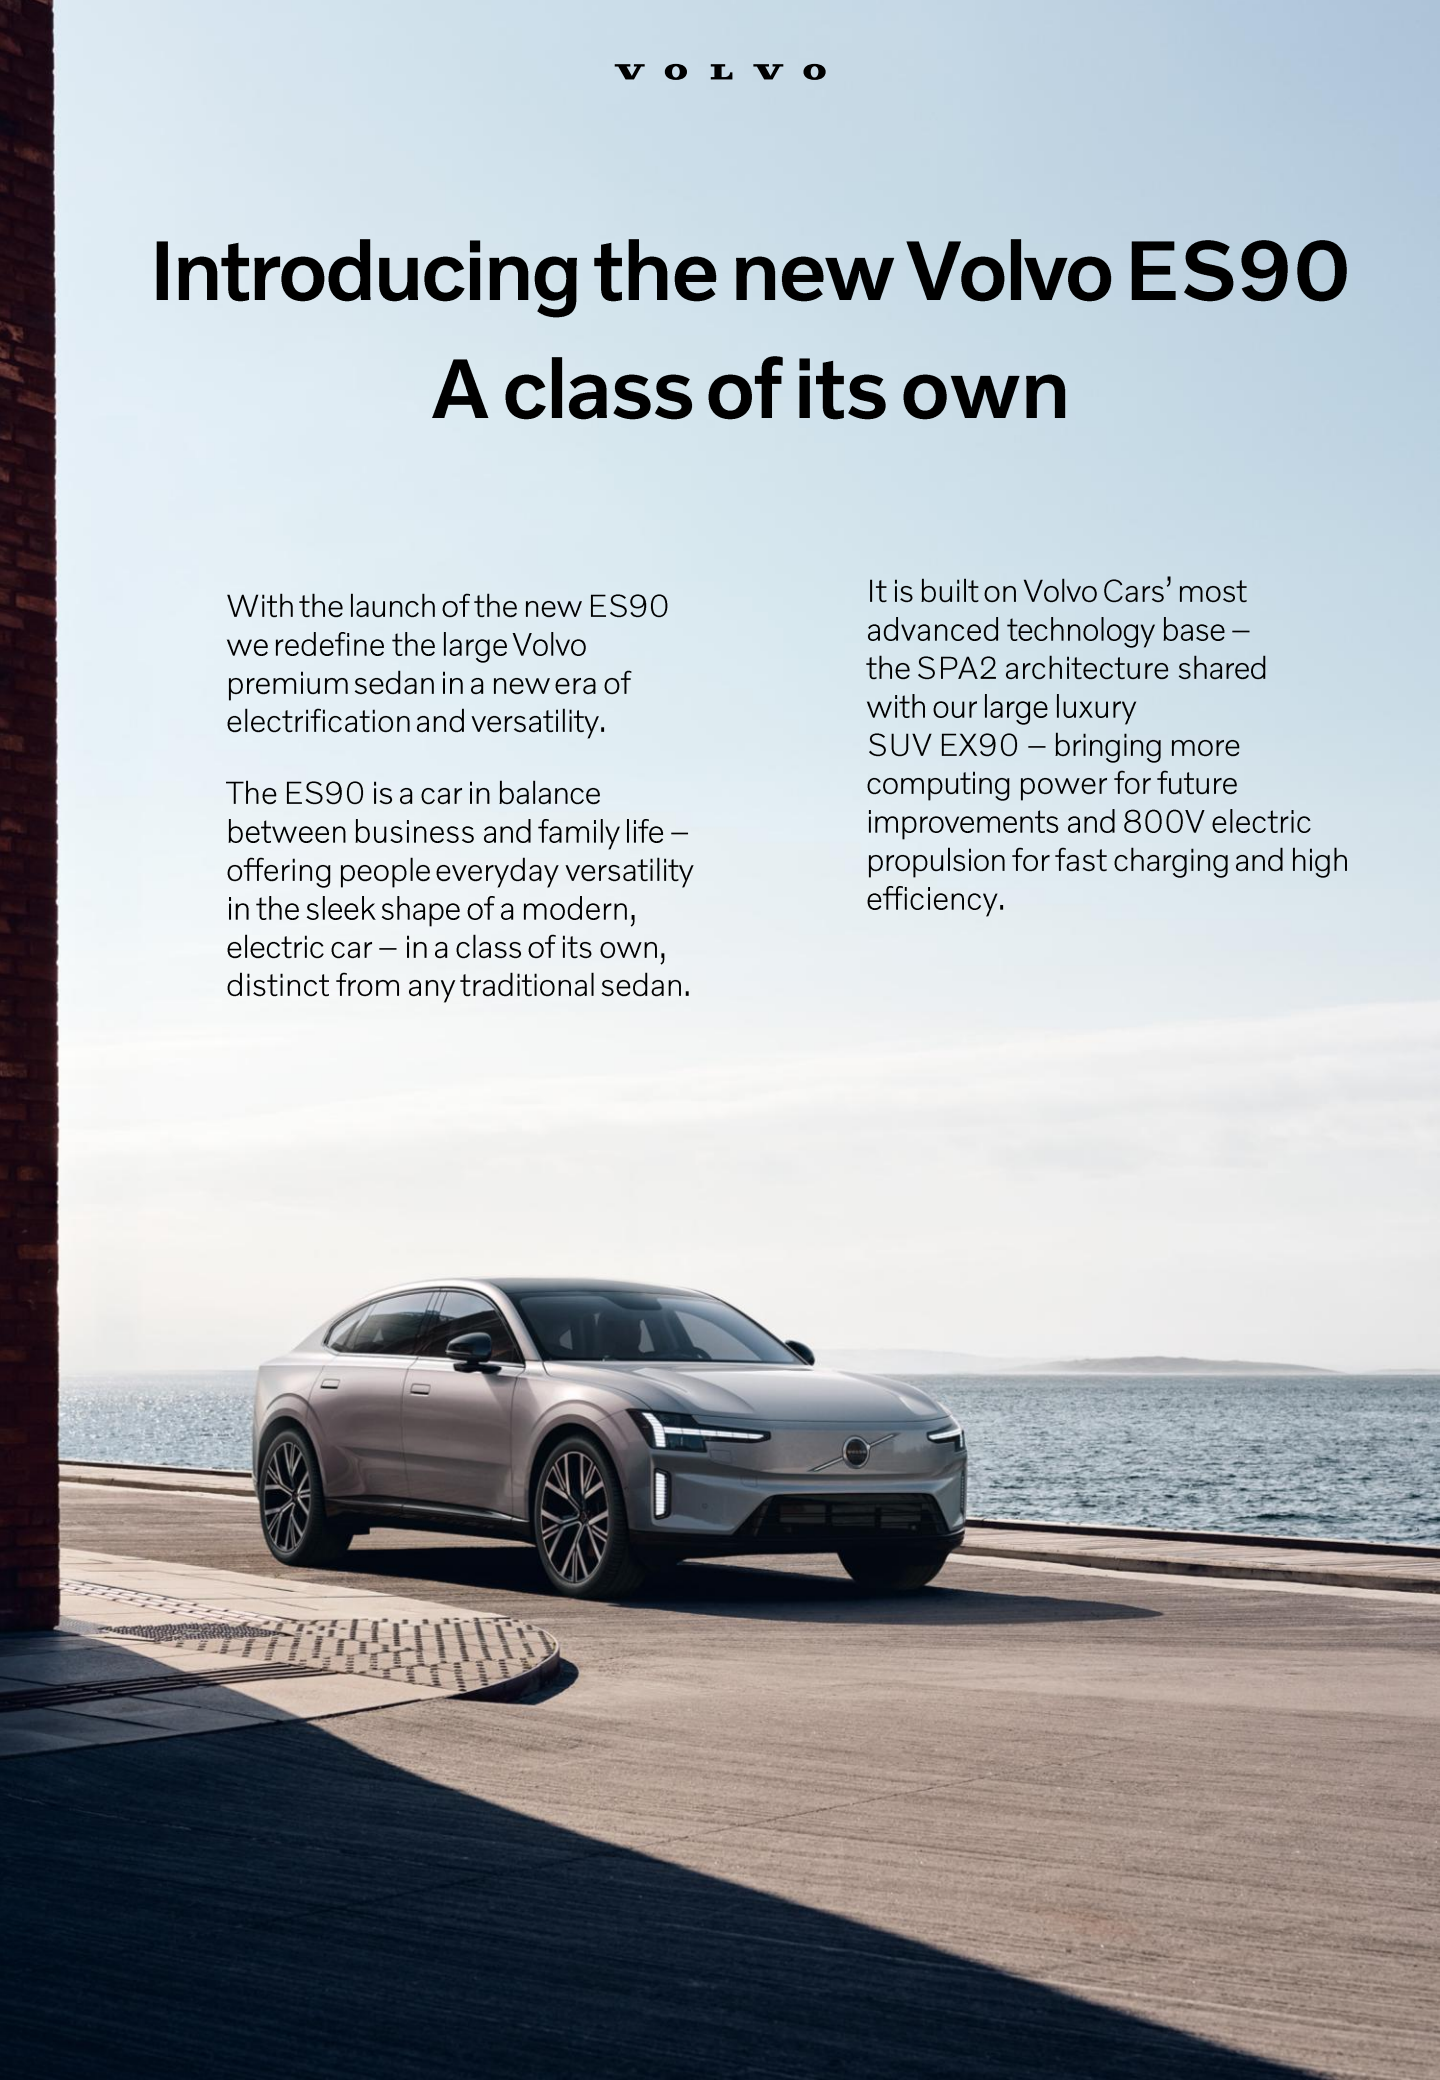

VOLVO

Introducing the new Volvo ES90
A class of its own

With the launch of the new ES90 we redefine the large Volvo premium sedan in a new era of electrification and versatility.

The ES90 is a car in balance between business and family life – offering people everyday versatility in the sleek shape of a modern, electric car – in a class of its own, distinct from any traditional sedan.

It is built on Volvo Cars' most advanced technology base – the SPA2 architecture shared with our large luxury SUV EX90 – bringing more computing power for future improvements and 800V electric propulsion for fast charging and high efficiency.

VOLVO

Welcome To Explore The New Generation Premium Volvo sedan

The ES90 combines smart technology, excellent comfort, and spaciousness to elevate the experience for everyone onboard. Progressive Scandinavian design and high- class interior materials add new levels of refinement to the segment. And with the high level of safety and human centric technology, the ES90 demonstrates Volvo Cars' commitment to a safer future.

VOLVO

By combining the refined elegance of a sedan with the flexibility of a fastback, the ES90 is designed to help make everyday journeys safe and more enjoyable.

VOLVO

The Volvo ES90

A class of its own – a premium fully electric sedan combining smart technology and Scandinavian design

- **Excellent in-car comfort** including a luxury rear seat and a roomy occupant space in a silent cabin for a truly enjoyable ride.
- **Progressive aerodynamic silhouette** based on a long wheelbase offering high ground clearance, sloping roof, and a large tailgate for comfort and everyday versatility.
- **Cutting-edge sensing technology** inside and out for safe and enjoyable journeys.

- **Renewed in-car experience** with new electrochromic panoramic roof and ambience lighting.
- **Software-defined car platform** with powerful core computing for future upgrades – the car gets better over time.
- **First Volvo with 800V technology** for fast charging and high efficiency – long-distance traveller with up to 800 km range in one charge.

- **Intuitive user experience** with Google built-in and new generation displays.
- **Advanced driver support** including 360 camera with 3D view and next generation Pilot Assist with lane change.
- **Immersive surround sound** by Bose with 14 premium speakers, driven by a digital amplifier, offering 14 channels of customized equalization and a rich selection of state-of-the art digital signal processing technologies

VOLVO

Strong Design Features

1 Progressive streamlined sedan design to also include premium space versatility

2 Sloping roof line for strong personal expression and hatch tailgate for versatility

3 Long wheelbase (3.1m)

4 Aero Cd 0.25

5 New Thor's Hammer signature design headlights

6 Large aerodynamic wheels

7 High ground clearance (18cm)

8 Glossy black details

9 Flush windows and pillars

VOLVO

10 New signature C-shaped rear lamp design in two sections

11 Closed front

12 Frameless door mirrors

13 Flat underbody panel

14 Automatic spoiler shutter

15 Flush door handles

16 New panoramic electrochromic glass roof

17 Aero optimized front and rear deflectors

The Scandinavian living room

Clean, uncluttered Scandinavian interior design with high-quality, innovative materials make travel a pure pleasure.

The slim-proportion lightweight design with large wood decor areas creates a feeling of space and roominess for everyone inside the car.

Progressive interior materials

The Volvo ES90 brings many new, innovative, and progressive materials that speak volume to Volvo Cars' sustainability ambition.

Some examples:

- Bio-attributed Nordico as upholstery material on seats, door panels and centre armrest.
- The wood decor in the Volvo ES90 is FSC-certified (Forest Stewardship Council).
- The premium textile decor in the dashboard is 100% recycled polyester.
- Door waist rails and the instrument panel top use water-based PU while base and inlay carpets are made of 100% regenerated polyamide yarn.

Dual chamber air suspension with active chassis

The optional dual chamber air suspension system on all four wheels brings new dimensions to ride comfort while electronically controlled dampers adjust 500 times per second to optimise comfort and handling:

- Dynamic cornering control.
- Reduction of pitch/heave/roll.
- Bump and rebound control.

Air suspension lowers or raises the vehicle – 18 to +30 mm depending on the situation. Can also lower the rear of the car to hitch on a trailer. Dual chamber air suspension with active chassis is included.

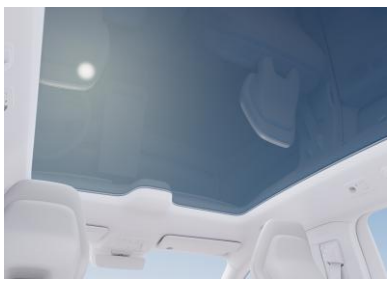

Electrochromic panoramic roof

The new active electrochromic panoramic glass roof adds a spacious, airy ambience, and when the sun gets too strong the glass can be shaded at the touch of a button.

By utilising electrically switchable glass, the driver can transform the transparency level of the panoramic glass roof to further reduce the solar glare and increase privacy.
