VOLVO

Discover your second home

With comfort, material quality and versatility in focus, the interior of the XC40 SUV soon feels like a second home.

Open skies

In the city or on the open highway, a panoramic roof lets light flood in, creating a natural, spacious feel for everyone in the cabin.

Pixel LED headlights

Our new advanced Pixel LED headlight technology constantly adapts the light pattern to optimise your vision without dazzling other drivers. It means you can drive on full beam all the time, creating less distractions and letting you focus on the road.
When the car's camera detects other vehicles, each headlight unit's 84 Pixel LEDs can shade out up to five vehicles at the same time. This can help you avoid dazzling other drivers while lighting up the road ahead efficiently.
